Executive Summary

Summary

Company Overview

Executive Summary

[REDACTED] the "Company") is a full-service landscaping and outdoor construction company headquartered in Fort Mill, South Carolina, serving the greater Charlotte metropolitan area. Founded in 2008, The Company has built a strong reputation for delivering high-quality landscaping, irrigation, hardscaping, and maintenance services to a diversified customer base of commercial and high-end residential clients. While the Company serves both end markets, it maintains a strategic focus on commercial projects.

The Company benefits from a diversified revenue mix across its core service offerings and has established relationships with 119 different customers. The Company's experienced management team brings decades of industry expertise spanning operations, landscape design, irrigation, and turf management, supporting the Company's continued growth and strong customer retention. Supported by a workforce of 37 employees, The Company possesses the operational scale and infrastructure necessary to efficiently execute projects of varying size and complexity. The Company is fully licensed and certified in both North Carolina and South Carolina, enabling the Company to service a broad range of residential and commercial projects while maintaining high standards of quality, safety, and regulatory compliance.

Company Overview

The company is a service supplier to commercial and high-end residential clients. The company's income is generated 55% through landscape, 34% through irrigation, 2% through hardscape, and 9% through maintenance on average over the last 7 years. The Company is a Fort Mill, South Carolina-based company primarily serving the greater Charlotte area.

Specialization

The Company is a full-service landscaping and construction company that specializes in landscaping, irrigation, hardscaping, and maintenance of outdoor spaces for both residential and commercial clients. The company's customer base is approximately 35% commercial clients, including office parks, retail storefronts, and multi-family housing complexes, and 65% high-end residential clients. While they serve both markets, their primary focus is on commercial projects.

Management Team Breakdown (2025)

Position	Number	Position	Number
Managing Member	1	Foremen	8
Production Manager	1	Laborers	18
Maintenance Manager	1	Driver/Laborers	4
Equipment Manager	1	Spray Technician/Assistant	1
Office Manager	1	Maintenance Manager	
Estimator	1	Total Operations Employees	31
Total Management	6		

The Company employs approximately 37 employees, consisting of 6 management personnel and 31 field employees. The management team oversees daily operations, estimating, production, maintenance, equipment, and administrative functions, while field operations are supported by experienced foremen, laborers, drivers, and maintenance technicians.

Management and Employees

The company's workforce is structured to efficiently complete both commercial and high-end residential projects. Multiple foremen supervise field crews to ensure projects are completed safely, on schedule, and according to client specifications. This organizational structure allows The Company to manage multiple landscape installation, irrigation, hardscape, and maintenance projects simultaneously while maintaining quality workmanship and customer satisfaction.

Revenue and EBITDA

Gross Profit

Past and Projected Revenue and EBITDA

For the projected years of 2026 and 2027, we used the average growth rate over the prior 7 years of 15.3%

For the projected years of 2026 and 2027, we used the average growth rate over the prior 7 years of 20.55%

Past and Projected Revenue

Past and Projected EBITDA

Gross Profit, COGS, and Margin Trend (Historical & Projected)

- Gross profit has increased from \$1.9M in 2022 to \$4.0M in 2027, driven by sustained revenue growth and improving unit economics. There was a Compound Annual Growth Rate of 15% for each of the projected years.
- Gross margin declined from ~50% in 2022 to a low of ~44% in 2024.
- From 2025 onward, the business experiences a meaningful structural margin expansion, with gross margins increasing to ~52–53%.
- This higher margin profile is assumed to stabilize through 2027, reflecting a normalized cost structure, improved pricing discipline, and operating efficiencies at scale.
- COGS growth stabilizes relative to revenue, indicating improved cost absorption and stronger gross profit conversion.

Year	Revenue	COGS	Gross Profit	Gross Margin
2022	3,706,104	1,841,277.43	1,864,826.38	50.3%
2023	4,455,338	2,403,915.70	2,051,422.59	46.1%
2024	5,231,916	2,912,970.29	2,318,945.30	44.3%
2025	5,676,724	2,687,311.24	2,989,412.41	52.6%

Asset List Explained

Asset Category	Quantity	Category	Estimated Market Value
Office Equipment	3	Office Equipment	\$8,300
Job Equipment	42	Job Equipment	\$304,980
Trucks & Service Vehicles	15	Trucks	\$207,500
Total Assets Listed	60	Total Estimated Market Value	\$520,780

The Company owns and operates a comprehensive fleet of vehicles and specialized landscaping equipment that supports both installation and recurring maintenance operations. Rather than relying on equipment rentals, management has invested in an owned asset base that enables efficient project execution and operational flexibility.

The Company has developed a substantial equipment base through continued investment over time. Management estimates the current market value of the Company's owned assets at approximately \$520,780, providing buyers with a well-established operational platform.

Repairs and Expected Payments

Vehicle & Equipment Repairs

Capital Expenditures

Vendor Agreements

Vehicle and Equipment Repairs

Category	2025 Total	Primary Repairs
Vehicle Operating Expenses	\$50,459	Primarily major engine, transmission, axle, injector, and drivetrain repairs across service trucks.
Equipment Operating Expenses	\$53,390	Primarily repairs to the Dingo, mini excavator, trencher, water trailer, and related equipment.
Combined Total	\$103,850	Reflects ongoing maintenance required to support field operations.

During 2025, the Company invested approximately \$104,000 in maintaining its vehicle fleet and operating equipment. These expenditures reflect both routine maintenance and major repairs necessary to maintain reliable operations. Given the Company's reliance on trucks and specialized landscaping equipment, including several long-tenured assets that continue to support daily operations, buyers should anticipate recurring annual maintenance expenditures in this range as part of normal operations.

Planned Capital Expenditures

Year	Planned Capital Expenditures	Total CapEx
2026	Truck crew, Dingo, Skidsteer, Trailer	\$98,000
2027	Truck crew, Riding mower, Two walk-behind mowers, Trailer with water tank	\$55,000

Vendor Agreements

The Company has established long-standing relationships with a diversified network of suppliers across all major purchasing categories. Maintaining multiple preferred vendors for each product category reduces supply chain risk, promotes competitive pricing, and ensures consistent material availability during peak operating seasons. No single supplier is critical to the Company's operations.

Marketing Trends

Marketing Strategies

Long Term Growth

Marketing Strategies

The Company maintains an active marketing strategy focused on residential customers through digital advertising on Facebook and Google, complemented by targeted direct mail campaigns. These efforts are designed to generate new customer leads and support the growth of recurring maintenance agreements.

Commercial business is generated primarily through long-standing referral relationships and partnerships with landlords and property owners managing multiple properties. The Company has not employed a dedicated commercial salesperson for approximately seven years, relying instead on its established reputation and referral network to secure commercial accounts.

Marketing initiatives are primarily directed toward the residential market, where management sees the greatest opportunity to convert one-time service customers into recurring, year-round maintenance contract clients. This strategy supports customer retention, recurring revenue, and long-term business stability. The Company does not currently maintain a dedicated commercial sales representative.

Favorable End Market Trends Support Long Term Growth

Continued population growth and in-migration throughout North and South Carolina are expected to drive sustained demand for residential and commercial landscaping services. Strong commercial and multifamily construction activity in the Charlotte metropolitan area creates attractive opportunities for landscape installation, irrigation, and ongoing maintenance services. Although countrywide growth has slowed, Charlotte's population is still growing in stark comparison. Every county in the metro area showed positive growth except only one county which remained unchanged.

Rapid population growth across the Charlotte metropolitan area continues to support demand for residential and commercial landscape services.

Commercial and infrastructure construction spending in the U.S. continues to benefit from long-term investment trends, supporting demand for landscape installation, irrigation, and maintenance services associated with new developments.

Continued investment in commercial and multifamily construction provides a favorable demand environment for full-service landscape providers.
